

INFORMATION MEETING

Wastewater Upgrades (Cell#1) ALTERNATIVE APPROVAL PROCESS

Take notice that an information session will be held for property owners that are on the District of Clearwater Sewer System.

The establishment of a Loan Authorization Bylaw in the amount of \$560,000 for the upgrades to wastewater treatment facility (Cell#1) which includes a new 'headworks' screening apparatus and a lined sewage treatment (aeration) lagoon. These upgrades will increase the treatment capacity of the District's wastewater system. The District is holding an Alternative Approval Process to provide property owners in the sewer service area an opportunity to vote in opposition to the establishment of this bylaw.

A public information session will be held at the Dutch Lake Community Centre on June 16, 2020 at 6:30pm.

The public information session provides an opportunity for those property owners within the sewer service area to hear from the District's engineers and ask questions regarding the Wastewater treatment project.

How do I know if I am in the sewer service area? If you pay a sewer parcel tax you are in the sewer service area. **Please note that a mailout will be in your mail box shortly.*

For more information on this project and process please check our website at <http://www.districtofclearwater.com/residents/alternative-approval-process/> or contact: Leslie Groulx, Chief Administrative Officer by phone at (250) 674-2257, or by email at lgroulx@docbc.ca
